

Modulair 1

Universal air duct for rooftop and under roof A/C units

The components are modular and can be combined in many different variants according to the applications and to the vehicle length.

eg. A: central air duct characterized by a terminal element prepared for air paper hoses.

eg. B: central air duct for mini-busses prepared cover to contain the evaporator.

eg. C: central air duct for the installation of a rooftop A/C unit with central diffuser to be matched with the A/C unit.

Modulair 1

Canalizzazione aria universale per evaporatore a tetto e sotto tetto

I componenti sono modulari e possono essere combinati in numerose varianti a seconda delle dimensioni del veicolo.

es A: canalizzazione centrale con elemento terminale per attacco tubo aria.

es B: canalizzazione centrale per minibus dotato di coperchio predisposto a contenere l'evaporatore.

es C: canalizzazione centrale dell'aria per l'installazione di un sistema A/C a tetto dotato di diffusore centrale collegato all'unità a tetto.

Modulair 2

Universal air duct for rooftop and under roof A/C units

The components are modular and can be combined in many different variants according to the applications and to the vehicle length.

eg. A: central air duct characterized by a terminal element prepared for air paper hoses and the use of the Tarifa air diffuser.

eg. B: central air duct for mini-buses with terminal element for air paper hoses.

eg. C: central air duct for the installation of a rooftop A/C unit with central diffuser to be matched with the unit.

The elements of Modulair 2 differ from the ones of the Modulair 1 for the greater width.

Modulair 2

Canalizzazione aria universale per condizionatori a tetto e sotto tetto.

I componenti sono modulari e possono essere combinati in numerose varianti a seconda delle dimensioni del veicolo.

es A: canalizzazione centrale dotata di elemento terminale predisposto per attacco tubi aria e per l'utilizzo del diffusore Tarifa

es B: canalizzazione centrale per minibus dotata di elemento terminale predisposto per attacco tubi aria.

es C: canalizzazione centrale dell'aria per l'installazione di un sistema A/C a tetto dotata di diffusore centrale collegato all'unità.

Il Modulair 2 si differenzia dal Modulair 1 solo per la maggiore larghezza dei singoli elementi.
